Next GEN

Chemicals & Petrochemicals Summit 2023
Innovation, Self-reliance & Sustainability

13-14 JULY, 2023 | NOVOTEL MUMBAI INTERNATIONAL AIRPORT, MUMBAI

THIRD EDITION

POST SHOW REPORT

Organized by

 Indian **CHEMICAL** News

RESPONSIBLE CHEMISTRY

For People, Planet and Prosperity

"Make in India,
Make for the World"

A leading business and socially responsible chemical company

50 year legacy | 5 manufacturing facilities | 1000 Customers
100 Products | 56 Industry applications | 1800+ strong talent
30 nations' presence

Deepak Nitrite Ltd.

Deepak Phenolics Ltd.

(Formerly known as Deepak Clean Tech Limited)

Deepak Chem Tech Ltd.

Corporate Office: Aaditya - I, Chhani Road, Vadodara - 390024. Gujarat, India.

Tel: +91 265 276 5200/396 0200 | **Fax:** +91 265 276 5344 | www.godeepak.com

The third edition of NextGen Chemicals & Petrochemicals Summit 2023 gathered **1,200+** registrations from **375+** organizations from around the globe. The event was attended by **350+** delegates over the two days with over **80+** speakers joining the event live as well as virtually. Around **85% delegates** hailed from major towns and cities from India. The event attrition rate was low with 95% of registered attendees attending the event live. **58% of attendees spent 14 or more hours while over 65% of attendees spent 8 or more hours at the event.** This year's edition was supported by Ministry of Chemicals & Fertilizers, Department of Chemicals & Petrochemicals, Government of India.

Feedback from attendees was positive, with an overall average satisfaction rating of over 93%. Around **85%** delegates said they plan to attend a future NextGen Chemicals & Petrochemicals Summit while 91% said they would recommend it to a friend or colleague.

This year's event attracted an incredible mix of attendees from across the global chemicals, petrochemicals & eco-system

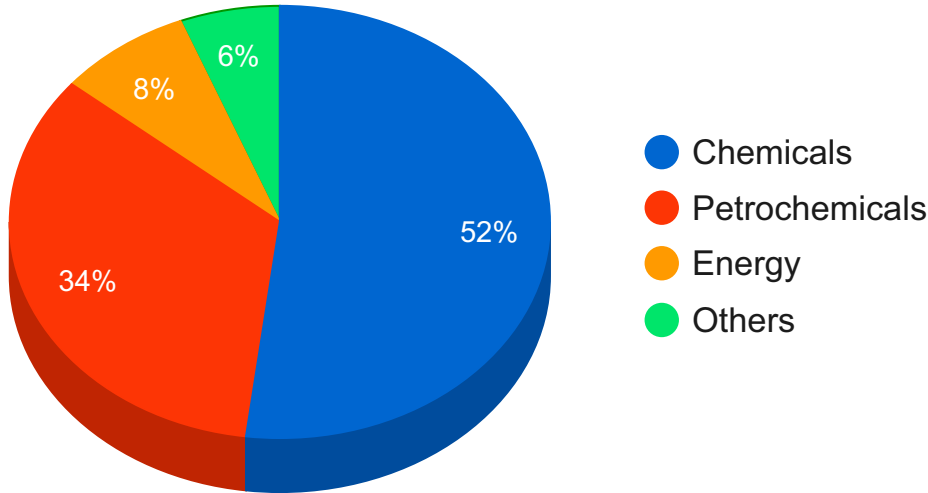

Attendees came from a range of industry sectors including Chemicals, Petrochemicals, Gas and Energy.

Attendee job functions included: CXO / ED, VP / SVP / GM, Director, Manager, Product and Business Development.

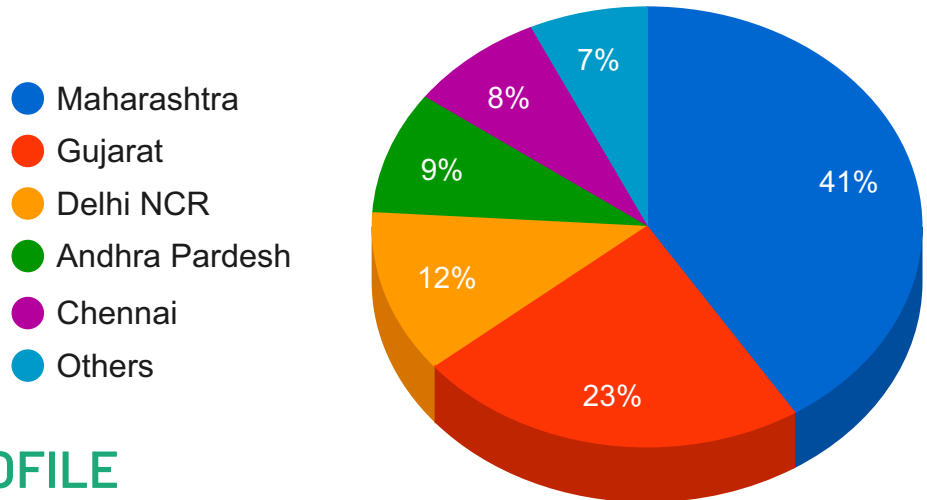

Attendees hailed from around the cities with the majority attending from:

- Maharashtra
- Gujarat
- Delhi NCR
- Others

TRANTER PLATE HEAT EXCHANGERS, for increased durability and energy efficiency!

TRANTER OFFERS A WIDE RANGE OF GASKETED AND WELDED HEAT EXCHANGERS:

- Suitable for very high pressure & temperature applications.
- PHE sizes from very small to very large capacity
- Can offer very tight temperature approach (even less than 1°C)
- Serves wide applications in food and beverages, bio-fuels, mining, power, HVAC, oil and gas, petrochemicals, steel etc

The Tranter patented Ultraflex corrugation pattern is highly effective in heat transfer. Conventional herringbone patterns are also available to complement the Ultraflex plate pattern. Both diagonal and parallel flow options are available.

Tranter worldwide network of manufacturing locations and service centers assures fast delivery of assembled heat exchangers, spare parts of all types of heat exchanger and plate cleaning and refurbishment service. Tranter service centers and assembly shops are also available in Brazil, UK, Germany, Italy, China, Australia and UAE.

A WORLD LEADER IN CHEMICAL SOLIDIFICATION AND HANDLING SOLUTIONS

Granulation, solidification and handling systems for different kinds of chemicals like resins, waxes, hot melts, antioxidants, stabilisers and specialty chemicals.

IPCO offers:

- High productivity – on-stream factor of 96%.
- Proven Rotoform technology – 2000 systems installed in 30+ years.
- Complete process lines or retrofit of existing equipment.
- Global service / spare parts supply.

 Sr. Vice President
 Centrum Broking

SESSION VI: Health, Safety, and Environment: The Missing Link

K. K. Sharma
 Whole Time Director – EHS
 DCM Shriram

Nilay Vyas
 Global Head – Safety & Health
 UPL Ltd.

Geetali Thakur
 EHS Regional Director
 Givaudan

Vishal Choudhary
 Dy Industrial Advisor, DCPC
 Ministry of Chemicals & Fertilizers

Alok Chandra
 Chief – HSE
 Tata Chemicals

Suresh Kalra
 MD – India & President Asia
 Hubergroup

Amish Kamat
 Regional HSE Manager (APAC)
 Safety & IH, Bayer

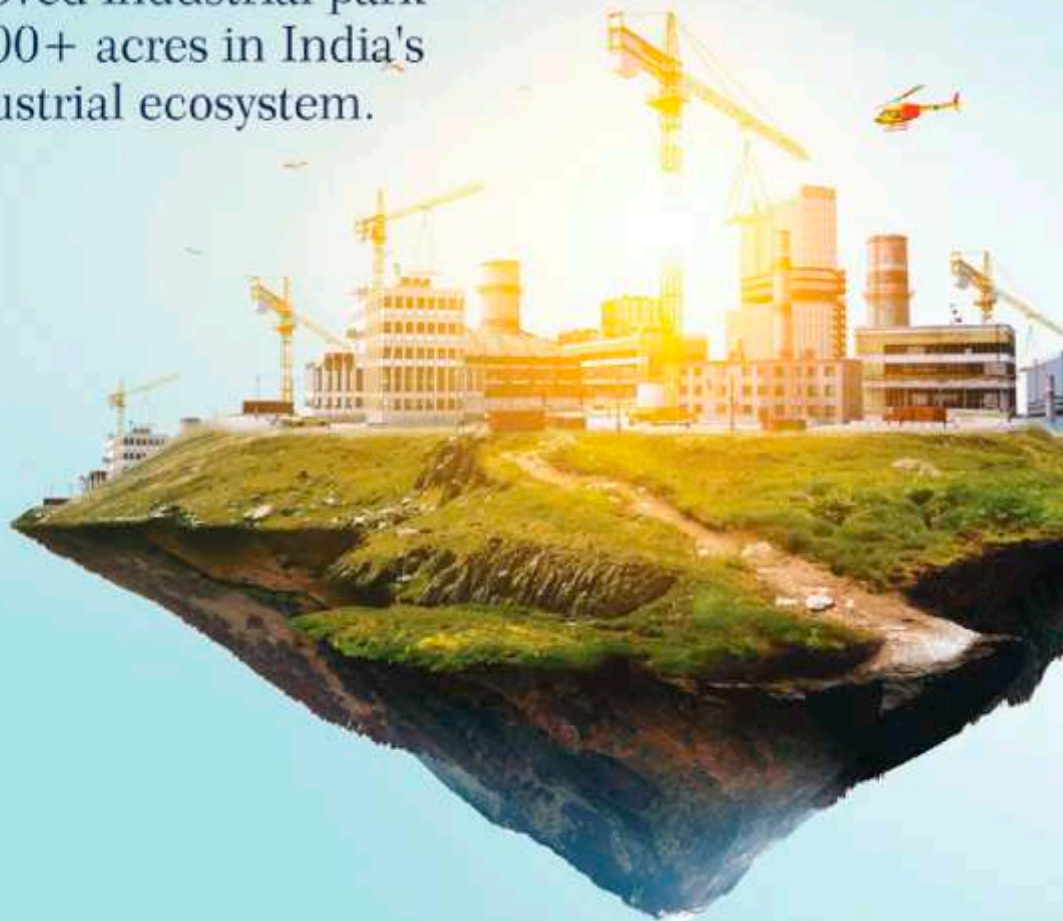

Priyamvada Bhumkar
 Managing Director
 Soujanya Color

The struggle to get Green Signal for Red Industries is real.

We understand that!
How about having access to fast track set-up...

PIP (Payal Industrial Park) is a government-approved industrial park spanning over 3500+ acres in India's Dahej PCPIR industrial ecosystem.

It has all the environmental clearances and facilities required for red industries. Access to railways, roadways, seaports and airports makes it a strategic location for businesses.

It is the ultimate destination in Asia to set up a manufacturing plant or industry.

Key Points -

- Environmental Clearance
- Innovative Park Design
- Approved by Govt. of Gujarat
- Easy Access to Manpower, Vendors and Technology
- Great Connectivity with Railways, Roadways, Airports and Ports
- Effluent Treatment Plants, Power Distribution, Water Availability and Fire Fighting Facilities

PRESENTATION

Speaker

Sachin Kulkarni

Head of Digital Enterprise for Process Industries
Digital Industries operating company
Siemens Limited

SESSION VII

Battery: The Big Opportunity

Saiprasad Jadhav

CEO & Director
Epsilon Carbon

Kiriti Varma

Co-Founder & COO
Altmin

Darshit Jaju

Head – Battery and Renewable Energy
Hindalco Industries

Chandrashekhar Chincholkar

Director - Corporate Advisory

Your Trusted EPC Partner for Chemical Plants

As a customer-centric team, we have achieved exceptional success in executing hundreds of significant projects worldwide. Our turnkey EPC offerings are tailored to serve the chemical industry across sectors such as Fertilizers, Petrochemicals, Green Chemicals, Refinery, Electrolysis, and Industrial projects.

Central to our organization is a highly skilled engineering and execution workforce proficient in managing diverse technologies. Our unwavering commitment to contributing to a sustainable future further solidifies our positioning as a dependable EPC partner for your chemical plants across the globe.

Transforming chemical operations through technology

Distributed Control Systems in numbers

23 years

For consecutive years ABB has led the global Distributed Control Systems (DCS) market.

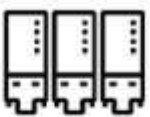

35,000

ABB Distributed Control Systems (DCS) installed - across more than 100 countries.

100,000

Workstations connected to ABB Distributed Control Systems (DCS) worldwide.

100,000,000

Input/output points connected to ABB Distributed Control Systems (DCS) at customer sites worldwide.

Globally the No. 1 DCS*
